

ComforTen® Tray Label Instructions

- Use a new Excel document for each sheet of labels needed. (You may have one or more attachments within your email.)
- Do not create/use additional TABS on the Excel template.

- Use only columns “D” through “M” and rows 4 through 23.
- Only use font and size that is already set.
- Color may be used. (Please note: lighter colors, like yellow, do not show well.)
- There is “test” on each label that can be used. Replace the word “test” with what is needed. If you are not using a label, delete “test” from unused cells.

Test	Test	Test	Test	Test	Test	Test	Test	Test	Test
Test	Test	Test	Test	Test	Test	Test	Test	Test	Test
Test	Test	Test	Test	Test	Test	Test	Test	Test	Test
